

THALIYAN TRADERS
CUSTOMER DELIGHT

**Your Global Partner with integrity
Serving the organic industry**

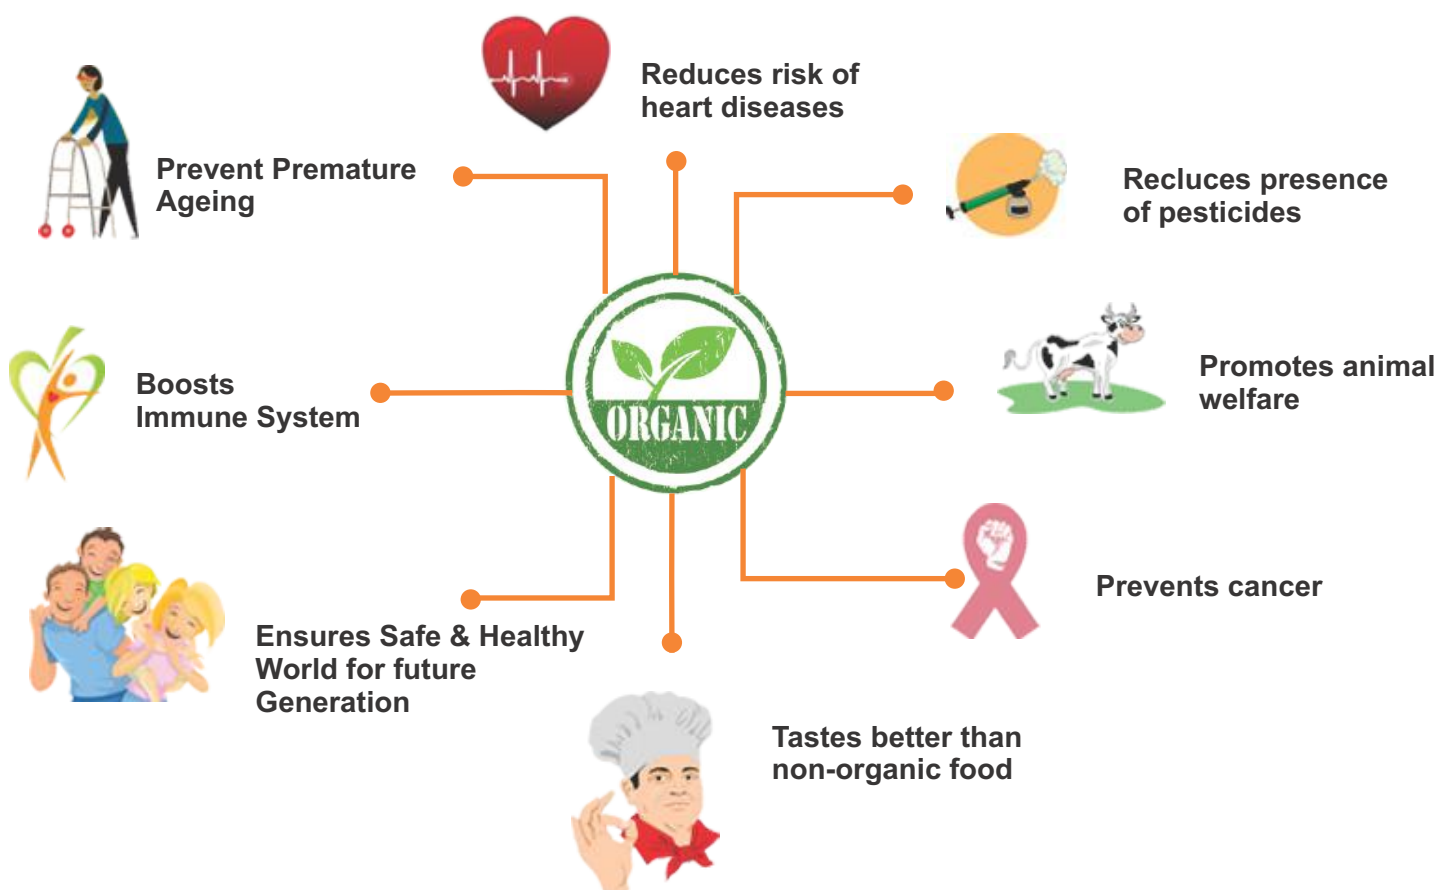

Thaliyan Traders

To Serve and Develop Organic Lives

Thaliyan Traders is a revitalizing service style that brings an ever delight and peace to your organization regarding certain potential service aspects.

Its a realization of our dream, of creating an extraordinary service attitude in the field of serving of kinds of dried-raw food items required for canteens and dairy farms. Ours is not only a supply of goods but also gives you the real feel of service aspects backed by strong sense of responsibility, supervision and guarantee.

Organic Feed For Total Health

Organic Animal Feed Production

We're dairy farmers, so we know that your cows need feed of the very best in nutrition and quality to produce rich milk. Our organic cow feed is most often made from soyabean grained, soya meal, wheat bran, orid husk, orid dust, maize grained, bajra grained, rice bran oiled, rice bran de oiled, coconut de oiled cake powder, tapioca powder, wheat grained, rice dust, bypass fat, bypass protein, feed binders, organic minerals, digestive enzymes, natural sweeteners & amino acids. We know your cows are special, and you may have a special mixture that you want us to create. Send us your specifications, and we'll mix you the exact formula that you require for your rations.

Figure 1: The digestive system of a cow includes four stomachs. The rumen is similar to a lake with a river running through one corner.

Glazing animal eats grass with fluke cyst attached

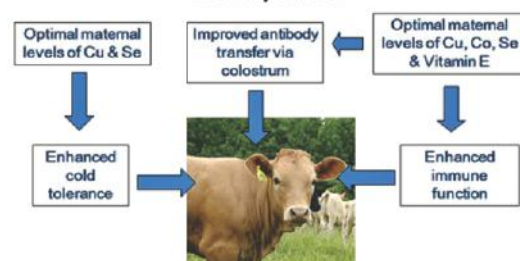

Adult fluke in an liver lays egg

Young fluke leaves snail and attaches to grass as cyst

Fluke egg passed out in faeces 10-12 weeks after ingestion of fluke cyst

Fluke egg hatches in water and seeks snail in shallow, slow-moving water

Impact of Prenatal Trace Minerals on Producing Healthy Calves

Mass Rice Production

Our Official Partner

NIRMAL

Let Healthy Food Be Your Medicine
Rather Medicine Being Your Food

The one factor among many that makes thaliyan traders proud is its most innovative and state of the art manufacturing units. The modern sortex rice machine has been imported from Satake, Japan. These machines along with others make our plant one of the best in the industry. We take pains to keep abreast to the changing technology in the field and implement any of them which would be of benefit to our esteemed clients. One another feature of our plants is our very stringent quality check measures. We guarantee to ourselves that not a grain of rice leaves our premises without undergoing all quality checks that has been incorporated in our facility. This in turn gives our customers the chance to believe, 100%, on the quality of all our products.

Features

- No Colors
- No Chemical Process
- 100% Natural Processing
- Processed by Advanced Machineries
- Highest possible Cooking time for Canteens
