

“RELIABLE IT PARTNER
FOR YOUR BUSINESS...”

WELCOME TO INTUISYZ

TECHNOLOGIES Pvt. Ltd.

Why INTUISYZ ?

In an increasingly connected world, a strong online presence is of critical importance in sustaining existing customer relationships while developing new customers on a constant basis. At INTUISYZ, we work to provide diverse elements that define your online presence in a manner that suits your requirements with a strong focus on the necessities of your target audience.

Quality

We take pride in delivering zero-defect products and services.

Business Knowledge

We take your business seriously. We understand that you don't care what technology we use as long as our systems work seamlessly with your business.

Excellent ROI

We are mindful of your need to be financially efficient. Each member of INTUISYZ takes utmost care to ensure that our systems give you the highest return on your IT investment.

Integrity

People at INTUISYZ work hard to win your trust. We know that you will trust us only when we prove truthful and dependable.

Innovation

We do not push our customers to adopt all the latest technology available in the market. There are times when adapting to a new technology gives you a lot of competitive edge. We recommend only such upgrades.

Respect

We believe in giving respect and taking respect.

Service

IT CONSULTING

INTUISYZ IT Consulting services assist you in ensuring that your IT is able to quickly and efficiently adapt to new business requirements, and is delivered in the most cost-effective model to suit the pace of your business growth. We work with you to assess your current IT situation, delivering expert insight and robust recommendations that strengthen your decision-making, in alignment with your business and technology strategies.

IT Strategy

- > Technology decision- do it right
- > Stay ahead of competition - today and tomorrow
- > Archive long -term objectives without impacting ability to meet short- term goals

Business Transformation

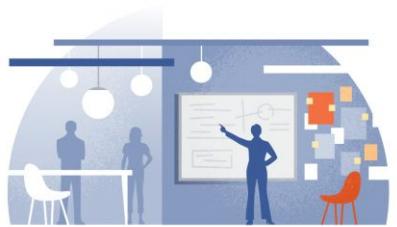

- > Use it to solve customer hassles
- > Reduce red tape and paper works
- > Maximize return on your investments
- > Use business intelligence to stay ahead of competition
- > Connectivity - Track and manage your business when you are travelling
- > Enforce accountability in your organization

Risk Management

- > Reduce business risk due to bad quality
- > Cost- Reduce rework cost
- > Reputation - Reputation may be lost if your system doesn't perform due to bad quality
- > Productivity - Your employees performance may be impacted

Process

Initiation - 15 Minutes

Successful businesses understand that their needs should keep evolving to remain successful. The biggest changes in business environment today have something to do with Information technology. We request one of the business leaders to meet with our consultants at your own office. During this meeting, we will be able to find out whether your business will benefit from a strategic change in your Information Technology use. Sometimes, you may not have anything to worry. Your IT Systems may be just right for your business. **Do Are you prepared for the rapid changes in the Information Technology ?**

Detailed Business Review - 1 Week

During this stage, INTUISYZ performs an in-depth analysis of your business model to suggest your strengths and weaknesses from an IT Stand point. Businesses need to consolidate their strengths and work on their weaknesses.

We analyze various areas of your business to see whether there is any area you can improve return on. Some of the areas we cover are :

| | | |
|---|----------------------|--------------------|
| Branding , Websites, Social Media, Marketing, Advertising | Management Reporting | |
| Customer Relations | Sales | Project Management |
| Accounting, Cash Flow, Tax Reporting | IT Security | Training |
| HR , Payroll, Performance Management | | Logistics |

Detailed IT Systems Review – 2 Weeks

Very often, businesses do not use their existing software systems effectively. Sometimes, it is possible to improve productivity by just using your existing software in the best possible way. When a system is not meeting some of your needs, it is possible to extend that software rather than buy something entirely new. At the end of this review, we will be able to help you use your existing systems in the best possible way and provide you pointers as to how you can optimize your IT presence.

Strategy Document – 1 Week

This is a summary document which contains a roadmap of steps that you can take to get the best returns on your IT investment.

Strategy Execution

We help you execute the strategy and report to you the progress on a regular basis. You can consider us as Your OWN IT Team that helps monitor your IT vendors for you.

Social Media

Websites

Design & Development

INTUISYZ provides professional website design, development and maintenance services. Our skilled web designers and developers accomplish various website projects from brochure sites to multi-functional web portals. We have a large pool of resources and the required business and technical expertise to develop websites of any complexity. We provide complete front-end and back-end development based on the latest technologies and industry trends.

We design for you, based on your needs. We make sure every design is pixel-perfect, and fulfills all of your requirements. We don't sacrifice quality, and we don't compromise on usability. A design needs to be as functional as it is pleasing, and we design with both equally in mind. We ensure web development seamlessness, continuity, and transparency — enabling better control and visibility into the workflow — by combining best-suited project development methodologies and techniques with relevant project management tools and domain expertise to

Affordable Websites

Not everyone requires designer clothes. We wear factory made clothes. We don't care if somebody 100 km away wears the same design as we wear. It needs to look good, it has to be of good quality, and it should be easy to maintain.

A small businessman thinks the same way about websites. It is great to have an tailor designed website, but we care

- Is the price affordable?
- What is my yearly maintenance expense?
- Can I make necessary changes for free?
- Can I add new products and services for free?
- Can I add Images to the gallery myself?
- Does it allow customers to provide their testimonials?
- Does it have contact details and location map? Can I update them?
- Will my site appear in google search?
- Will it display properly on mobile phones?

We say a big YES.

We have a library of more than 100 themes from which you can select your website's look and feel.

Web Site Features:

[Home Page](#) [Products](#) [Services](#) [About Us](#)
[Contact Us](#) [History](#)

ERP (Enterprise Resource Planning)

INTUISYZ has an ERP system that integrates applications for managing all your business related data like product planning, developing/manufacturing, marketing, inventory etc. This business management software has the following modules:

- Sales/Purchase/Inventory
- Manufacturing
- Customer Relation Management
- Project Management System
- Human Resource
- Business Intelligence
- Asset Management
- Financial Management
- Document Management

Each ERP module is focused on one area of business process which helps you manage your firm's back office activities smoothly.

CRM (Customer Relationship Management)

INTUISYZ Customer Relationship Management (CRM) software is the only cloud solution that delivers a real-time 360-degree view of your customer. CRM provides a seamless flow of information across the entire customer lifecycle from lead through to opportunity, sales order, fulfillment, renewal, upsell, cross-sell, and support.

In addition to traditional CRM capabilities like SFA, customer support and marketing automation, CRM delivers

Key Benefits

- Streamlines lead-to-cash processes.
- Elevates productivity across the organization with a 360-degree view of your customers.
- Improves sales performance through forecasting, upsell and commission management.
- Manage global sales and services organizations.

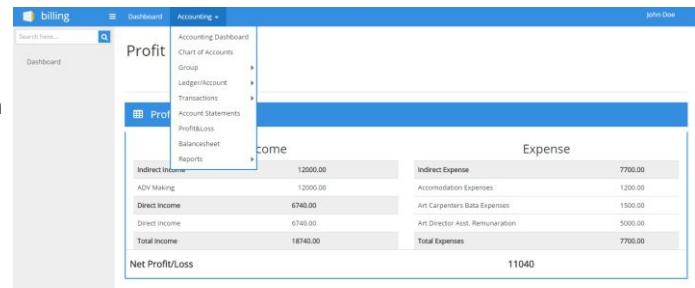

Grow Your Company with
CRM Software in the Cloud

Accounting System

Mobile App Development

INTUISYZ follows an innovative approach to deliver smart mobility, cost-effectively to our clients. We build your mobile applications with the following advanced platforms, Android and iOS

Mobile Apps Development Services We Offer:

iPhone Application Development

Our professional iPhone application developers are well equipped in iOS technological advancements. Our team of developers stay updated with latest versions and newly launched devices of iOS. Using iPhone SDK our mobile app developers build custom iPhone apps as a part of our services.

Android App Development

Android operating system is widely used due to its smart and rich applications. Our team of developers are acquainted in app development for Android phones and tablets. We transcend in giving Android application development services for your business or consumer app demands.

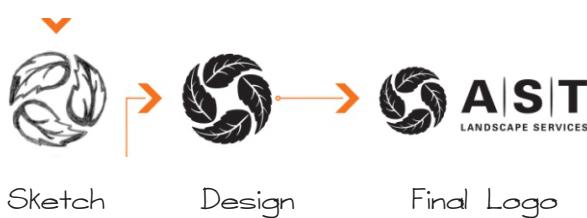

EMPOWER YOUR BUSINESS
MOBILIZE IN YOUR LIFE

Graphic Designing

The web offers a plethora of choices to everyone. Most often, you land up having only one chance to leave a lasting impression on customers. Tell the world who you are in the most striking way right at the first click. With our craftsmanship and attention to detail, make visual presentations unique and stunning.

Logo Designing

For us, logo is not a mere graphical apparatus. It is anyone's touch-point with the world. It says what you stand for in the loudest way. We design it strategically to make sure that it is spiritually and practically engaging.

Overall Branding

Branding is all about creating value to a brand and connecting your online users to it. It is not only about making things look pretty. Every detail of the visual interface counts when it comes to promoting business goals.

Business Presentation

A routine presentation is only half the story. Getting the right mix of content and technology is critical to get the business conversation going and bag the best business deal.

2D & 3D Animation

We possess the best competency when it comes to bringing forth the design and animation of visual concepts. Make visual concepts more engaging and lively with conventional as well as custom made animations.

Our Clients

With adequate technical expertise, we can serve your requirements on diverse domains using responsive technologies.

Who we are?

We can help you to find the right product to use if available in the market. If you need to customize a product available in market, or develop something entirely new we can help you do that. One of our early customers was from the Malayalam cinema Industry - Nazriya Nazim. We helped her effectively use social media in branding. Today, she is hailed as queen of Social media in South India for her meteoric rise in internet. Today, we are one of the leading social media services company in South India providing services to Union Ministers, trusted news papers, Movie stars and other businesses.
