

ACCOUNTING PACKAGE

| Your Transaction Happens Naturally

**“SIMPLIFY YOUR ACCOUNTING
AND CONQUER YOUR
FINANCES”**

ACCOUNTING PACKAGE

Financial Management is at the heart of any business. Our package is a complete accounting and management software solution. Our goal is to help you manage your accounts efficiently which will empower you to make sound financial decisions. INTUISYZ Accounting software package enables you to better anticipate and prepare for your company's financial future.

CLOUD BASED TECHNOLOGY

We have developed a cloud-based software which will revolutionize your accounting. Since it is cloud-based, it works seamlessly across all devices. It works on both Android and iOS mobile phones and provides you with real time data anytime and anywhere! INTUISYZ Accounting software is user friendly and requires very little technical know-how, which makes it the best choice available on the market for any business.

ACCELERATE YOUR TRANSACTIONS

INTUISYZ Accounting software syncs harmoniously with all other INTUISYZ ERP modules. It can also be integrated with your existing ERP software or third party software. So your accounts are automatically updated, real-time, saving you time and money. It minimizes manual errors and improves overall efficiency.

BENEFITS

- See who owes you money and send them reminders
- Get clear insights into your finances
- Get complete visibility of your business (balance sheet, P&L, tax details) at a click
- Monitor key trends in your business like cash flow and revenue
- Easy invoicing and estimates
- Multi user login, accountant login
- Track sales and expense

◆ ACCOUNTING DASHBOARD

Accounting dashboard aggregates all your accounting and finance metrics in one place. It gives you real-time view of invoices, cash flow, accounts receivable and accounts payable, profit and loss, and much more.

◆ LEDGER ACCOUNT

It can be used to sort and store balance sheet and income statement transactions. Individual ledger accounts can be easily created and maintained for cash, fixed assets, inventory, debt, revenue etc.

◆ BALANCE SHEET

Balance sheet is a financial statement that summarizes a company's assets, liabilities and shareholders' equity at a specific point in time. It details the balance of income and expenditure over a specific period.

◆ PROFIT AND LOSS

It provides details about profit and loss in the transaction. The overall income and expense details can be formulated from here. The profit and loss of the business is separated and shown independently.

◆ ACCOUNT STATEMENTS

It gives you a summary of all your financial transactions over a period of time. Monthly or quarterly account statements help keep an eye on your expenses and is very critical for budgeting.

◆ CHART OF ACCOUNTS

It provides a logical structure for the balance sheet accounts and income statement accounts in your general ledger. It facilitates easy addition, deletion and maintenance of accounts.

◆ REPORTS

As every report, it is detailed display of all kind of transactions which are going on and happened before. The transactions can be of about cash from hand to hand or with online methodologies. It can provide bank transactions also. There is a special feature called daybook where we can easily track all the details about daily transactions.

◆ TRANSACTIONS

It provides a detailed report of each and every transaction. It also provides a list of transactions conducted in a particular period of time. It helps you keep track of money credited and debited.

◆ PAYABLE RECEIVABLE

It keeps a detailed list of all the customers that owe you money. Similarly it keeps a detailed list of vendors who have to be credited along with due dates and other important information regarding the transaction. It sends periodic reminders about the approaching due date and overdue of amount to be collected or deposited.

ERP (Enterprise Resource Planning)

INTUISYZ has an ERP system that integrates applications required for managing all your business related data like product planning, developing, manufacturing, marketing, inventory etc.
