Software Development

Web applications

We are experts in building complex web applications

Responsive Website & Application

- ☞ Traditional websites are not suited for mobile phone browsing
- ☞ Now more than 70% of customers view your site from a mobile phone
- ☞ Responsive sites are mandatory if you want to get a customer from the internet

E-Commerce

At INTUISYZ, we understand that businesses can improve efficiency through right use of Information Technology. Our products help our customers to leave the repetitive and time consuming work to the machines so they can focus on real business. We build business software which enables our customers stay ahead of competition. A good e commerce site needs incoming traffic to become financially Successful. We can help them get incoming traffic

Grow your online business with INTUSYZ E-commerce

Web Content Management and Ecommerce into a single application, INTUSYZ helps you provide a better experience for the user, while simultaneously creating new business value and increasing your profits.

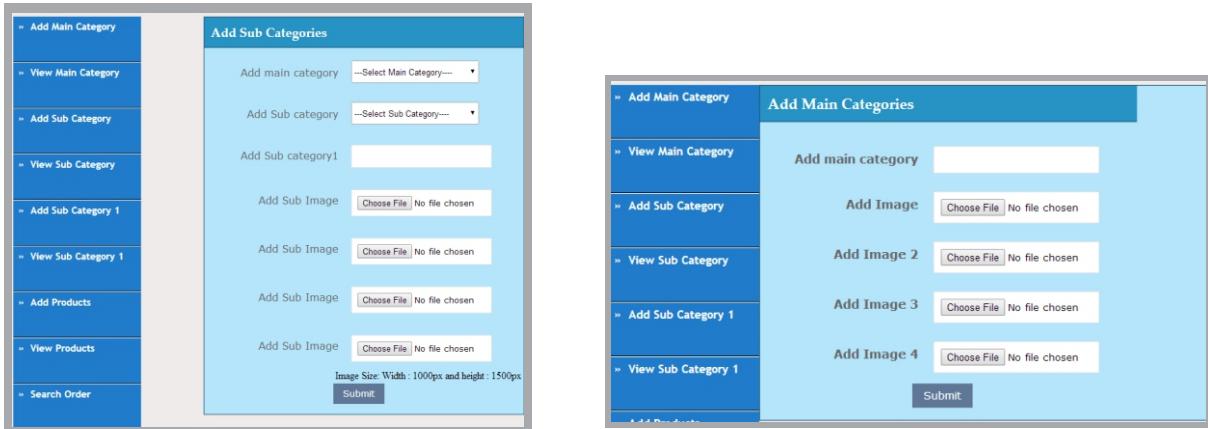

The image displays two screenshots of an e-commerce website for 'SAREE WORLD'.

Homepage Screenshot: The top navigation bar includes links for HOME, SAREE, SALWARS, LEHANGA, SHERWANI, NEW ARRIVAL, and TOP BRAND. A search bar and a 'Your Cart' link are also present. The main banner features a woman in a traditional saree with the text 'Bridal Saree Collection' and a 'SHOP NOW' button. Below the banner, there is a category menu for 'Saree' and a section titled 'POPULAR PRODUCTS' showing three saree options: 'FLORAL PINK', 'WHITE NET SAREE', and 'WHITE NET SAREE'.

Product Detail Page Screenshot: This page shows a detailed view of a 'STYLISH NET SAREE WITH GOLDEN JERRY WORK'. It includes a large image of the saree, a price of '\$ 269', a 'CLICK HERE FOR OFFER >>', and an 'ADD TO WISHLIST' button. The product details section notes that it is made of Net Saree with Golden colour jera, leot and sequin-decorating that extends to the pallu. It is available in Black, White, and Red colors. The material is 85% synthetic, 15% ab, dry was hots. It is in stock and delivered within 3 working days. Social sharing icons for LinkedIn, Facebook, Twitter, and Google+ are at the bottom.

Manage a customized online store

INTUISYZ product catalog helps you create detailed descriptions, upload images, assign departments, and categorize your products in logical groups by departments, tags, product types or any other logical separation you may have.

Get all you need for your successful online store

- Easy-to-modify shopping cart
- Customized online store, no technical skills required
- Memberships and Registrations
- Product variations (Price, Color, Size)
- Multiple payment options (Paypal)

**IF YOU BUILD IT,
They will come**

E-Commerce Application Development Service

We have many valuable platforms to ensure perfect system for profitable online business. The following image will reveal our insight in developing ecommerce applications for various business.

The screenshot shows the homepage of the Fashion Tamils website. At the top, there's a navigation bar with links for Shipping | Cash on Delivery, Sign In | Register | Need Help, and a search bar with placeholder text "Enter search keywords here". Below the navigation is the "Fashion Tamils" logo with the tagline "COMPLETE FASHION STORE". A red horizontal menu bar contains links for HOME, SAREE, SALWAR, LEHENGA, MENS WEAR, and KIDS WEAR. The main banner features a woman in a pink and yellow saree, with a "SHOP NOW" button overlaid. Below the banner, a section titled "New Arrivals" displays five thumbnail images of different sarees, each with a product ID: KANCHI DESIGN SAREE 1 (F S 8 8397), F S 8 8649, F S 8 8370, and F S 8 8667. A "View More" button is located at the bottom right of this section.

Product category

Among the abundance of products we are categorizing them in such a way to choose the right product for the specific customer. Refer below image for sample categorization of a product/see the sample categorization given below.

This screenshot shows a grid of product categories on the Fashion Tamils website. Each category has a thumbnail image, a title, and a price range. The categories are:

- STYLISH SAREES: 12 Products. From 4800INR to 4800INR.
- VARIETY OF SAR: 1 Products. From 5600INR to 5600INR.
- DESIGNED: 28 Products. From 5500INR to 5900INR.
- NAKK: 16 Products. From 5500INR to 5900INR.

To the right of these categories is a sidebar with a large image of a woman in a pink saree, the "Fashion Tamils" logo, and a search bar. The sidebar also lists categories: HOME, SAREE, SALWAR, LEHENGA, and a list of saree types: PARTY SAREES, SILK COTTON SA.., SILK SAREES, BRIDAL SAREES, and LEGENGA SAREES. At the bottom right of the sidebar is a "TOP ^" button.

Product search.

Product search from different angles can be done as per the interest of the customer. It may be price wise, color wise, quality wise of different category.

Category	SEARCH RESULTS	264 items found	
SAREE		30002	
SALWAR		4800 INR	
LEHENGA		4800 INR	
MENS WEAR			
KIDS WEAR			
JEWELLERY			
SHIRT

Who we are?

INTUISYZ Information Technology and Social Media Consulting was founded by Sijin Stephen in April 2012. Sijin Stephen was a Software Engineering manager with world's largest financial organizations prior to INTUISYZ. INTUISYZ aims to provide international standard Information Technology services to Indian businesses. Our IT consulting service will help you get good value for every paisa you spend on Information technology, whether it is in office automation, e-Commerce, Banking , Online Marketing or even general software purchase or development. We can help you find the right product to use if available in the market. If you need to customize a product available in market, or develop something entirely new we can help you do that.

Leadership & Qualities

We can help you get value out of your IT investments. At INTUISYZ, we can work with your software and Hardware vendors to deliver solutions that make sense to you in long term. When you need systems that are not available in the market, we can help you build these systems at the lowest possible cost without compromising a bit on quality. We can help you predict future technology advancements, and adapt your business accordingly.
